

The Angel University Lecture Series

INTELLIGENT WATER

FOR HIGHER CONSCIOUSNESS

Sunday 18th Nov. 2007 2-5 p.m.

Palm Springs Art Museum

101 Museum Drive, Palm Springs CA 92262

transformational water & the acceleration of consciousness

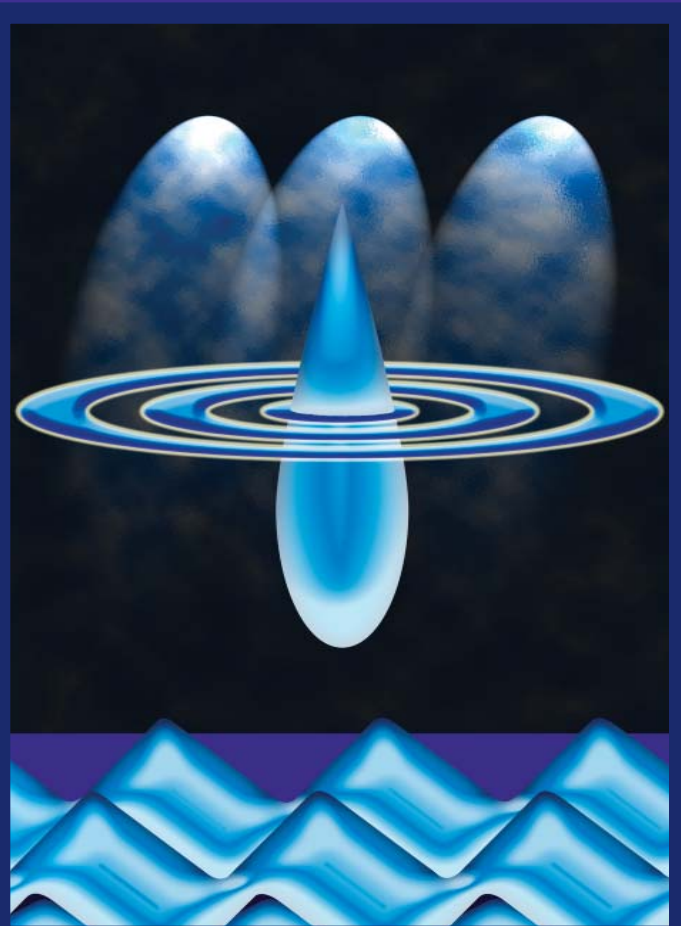

Don Estes MS .MT. the neuro-scientist renowned worldwide for his work in sensory science and vibrational medicine brings a new harmonic approach to healing by enhancing what is right rather than fixing what is wrong utilizing cutting edge sound and water technologies.

Don is the founding CEO of InnerSense Inc., and inventor of Vibrasound Sensory Resonance™ and other transformational technologies which have been featured on CNN, ABC, NBC, E.T, Beyond 2000, Science Frontiers and many others. This presentation has been inspired by the recent publication of his book *Harmonic Law: The Science of Vibration* and its master illustration *The Absolute Scale of Relative Cosmic Reality*. Don will discuss his new Transformants™ process to enhance water for Higher Consciousness with medical intuitive, Gwendolyn Awen Jones. Gwendolyn will read the energy field of individuals before and after the use of the Transformants™ water and explain the dynamic changes taking place on all levels of consciousness.

Don's website is: www.harmonicresolution.com

Presented by Angels of Light and Healing as part of a monthly series providing Angels, Artists, Healers and Scientists a place to network and share ideas for the benefit of humanity.
